Mon, 12 Nov 2018 08:23:00 GMT Why Do We Age by Hilton Hotema - goodreads.com - To answer these questions, we need to understand what happens to our bodies as we age. Are we programmed to live a certain number of years or do we wear out over time? These are two main theories of why we live as long as we do. In the first, the idea is that our genes determine how long we live. We have a gene or some genes that tell our body how long it will live. If you could change that particular gene, we could live longer.
